

STEMscopes AL is a customizable, blended learning STEM curriculum. With over 3.5 million student users, STEMscopes owes its success to a crowdsourcing platform where classroom teachers lead by content and pedagogy experts build lessons. Combine digital and print resources and easy-to-use materials kits to adapt to any learning and teaching style. **Launch a free trial at [STEMpreview.com](https://www.stemscopes.com).**

Real STEM Learning for Real Results

STEMscopes AL has a track record of research-proven success. Data from over 500,000 students shows that STEMscopes students outperform students using other curricula. Special populations and bilingual students also outperform those using other curricula.

- Built on the 5E + Intervention and Acceleration (5E+IA) lesson model.
- Continuously updated curriculum and content: new material and features are added constantly.

Everything in One Place

Gone are the hours of tedious lab setup, scouring for resources, and leveling materials for student needs. STEMscopes AL takes care of that for you, so you can focus on teaching.

- Track student progress, assign quizzes, or extend learning beyond the classroom with a STEM video.
- Differentiate like never before with modern PBLs, intervention labs, art integration, engineering, vocabulary development activities, leveled ELA and math activities, and more.
- Inquiry-based investigations done right: teacher background, facilitation, setup videos, materials lists, and journaling for fast and easy setup.

Intuitive Design

The STEMscopes AL's point-and-click, drag-and-drop platform makes it easy to implement on day 1. Teacher support, professional development, and teaching tools are integrated throughout.

- Teachers can assign work to students in seconds, and receive reports and provide feedback to students just as fast.
- Content is dynamic and constantly improving based on your feedback. STEMscopes AL evolves weekly based on your suggestions and in-classroom expertise.
