

Students participating in a STEMrangers Science Night embark on an exciting journey to understand and help solve the world's environmental issues, led by **Philippe Cousteau of EarthEcho International**. STEMrangers provides everything needed to implement a creative, thought-provoking, and engaging hands-on Science Night at your school without the stress of creating meaningful activities from scratch, supporting station leaders, or sourcing materials. Each STEMranger program comes with all the materials, videos, and hands-on supplies necessary to create an intriguing ecology-themed Science Night for your entire school community.

RECRUITMENT

Philippe engages the campus and families in advance by giving them their mission. He keeps excitement high with important briefings for every subject related to the mission.

RECONNAISSANCE

RECONNAISSANCE is the Science Night itself. At each Recon Station, families dive deep into science topics and environmental issues to help them understand the different aspects of the mission.

RESPONSIBILITY

The final step of Science Night consists of understanding the science and problems. This final piece of STEMrangers makes this more than just a "science night": it becomes an experiment in real-world application, research, and more!

COMING **FALL 2017**

Philippe Cousteau is the founder of EarthEcho International. He has established himself as a prominent leader in the environmental movement. An award-winning television host, producer, author, speaker, philanthropist, and social entrepreneur, Philippe is the son of Philippe Cousteau Sr. and grandson of Jacques-Yves Cousteau. His life mission is to empower people to recognize their ability to change the world.

STEMrangers Science Night is designed for 3-8th grade students, parents, and local school communities. Starting several weeks before the actual science night and extending several weeks after, STEMrangers fosters STEM citizenship while taking the hassle and frustration out of planning a meaningful science night at any time during the academic year. Two STEMrangers kits are available: **Food and Water** or **Ocean Exploration**.

1

Available August 1

Food and Water

3-5th or 6-8th Grade
STEMrangers Science Night Kits

Materials for up to 50 students

Classified Intelligence Papers
Online video intros from Philippe
10 science night stations
Station leader guides & videos
Themed backpacks
And more!

1-5 kits = \$1,485 each
6-10 kits = \$1,425 each
More than 10 kits = \$1,365 each

2

Available October 1

Ocean Exploration

3-5th or 6-8th Grade
STEMrangers Science Night Kits

Materials for up to 50 students

Classified Intelligence Papers
Online video intros from Philippe
10 science night stations
Station leader guides & videos
Themed backpacks
And more!
