

Name: _____ Date: _____

Two- and Three-Dimensional Figures

Part 2: Three-Dimensional Solids

Cone
Cylinder

Sphere
Rectangular prism

Triangular prism
Cube

Use the words above to name the 3-D figures.

Show What You Know

Name a 3-D shape that fits the attribute. There may be more than one possible answer. You may use a term more than once.

1. This shape has no vertices: _____
2. This shape has eight vertices: _____
3. This shape has five faces: _____
4. This shape has all congruent faces: _____
5. This shape has six vertices: _____
6. This shape has exactly two bases: _____
7. This shape has 12 edges: _____
8. This shape has a curved surface: _____
9. This shape has two congruent triangles: _____
10. This shape is made up of all squares: _____
