Every winter, birds fly south to keep warm.

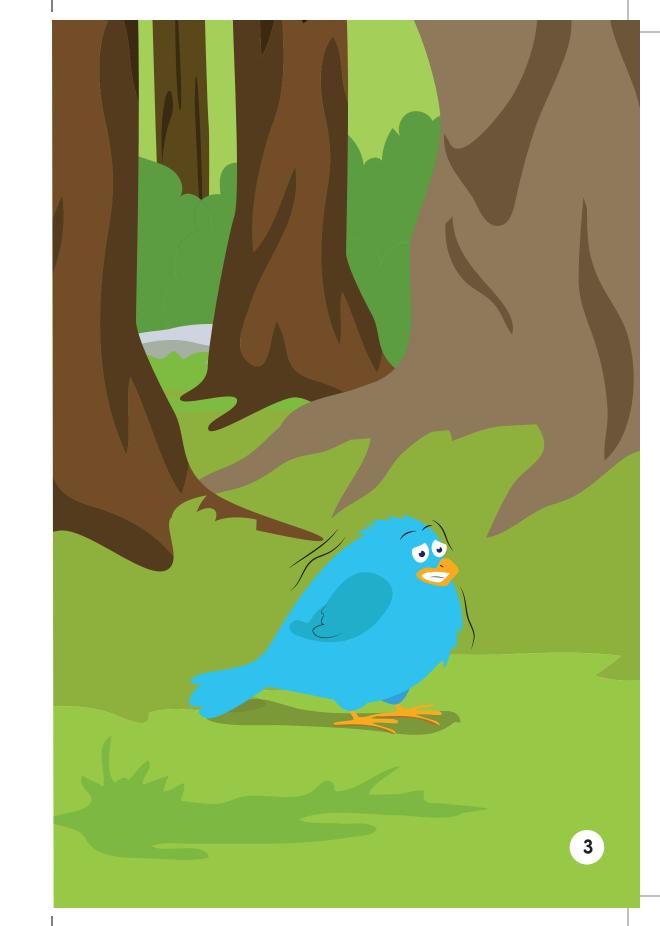

One year, Bird hurt his wing. He could not fly.

He had to stay in the

"How will I keep warm?"

Bird asked.

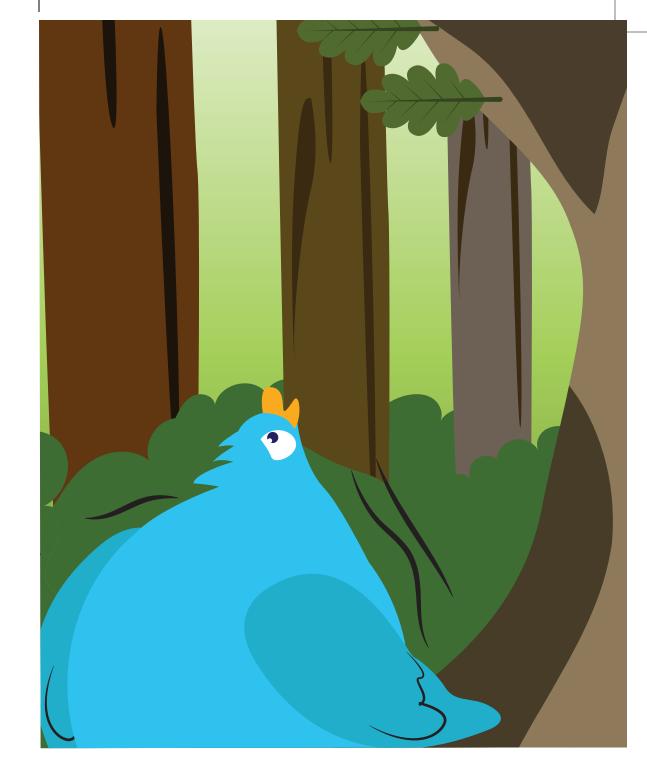

cold north.

Oak Tree had lots of big leaves.

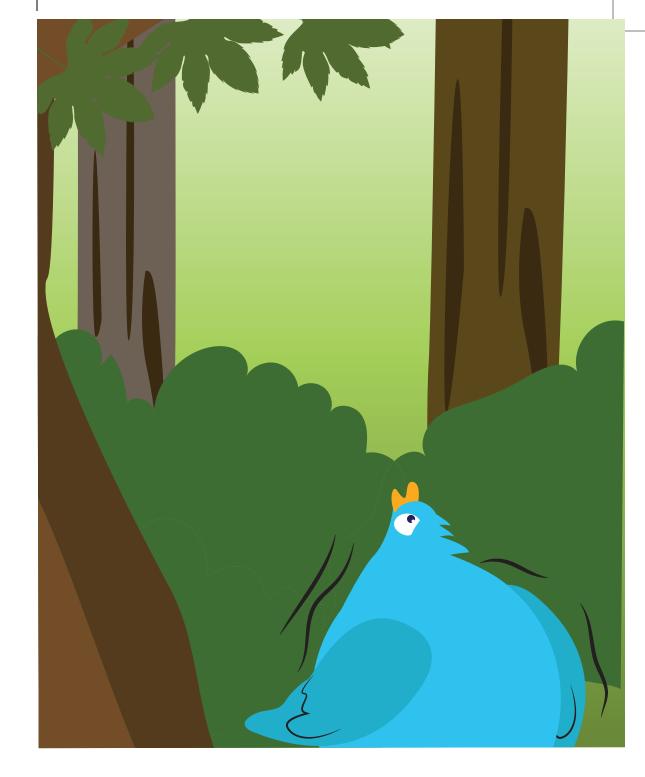

"Oak Tree, may I stay in your branches this winter?" Bird asked.

"I hurt my wing and can't fly. I need a place to stay warm."

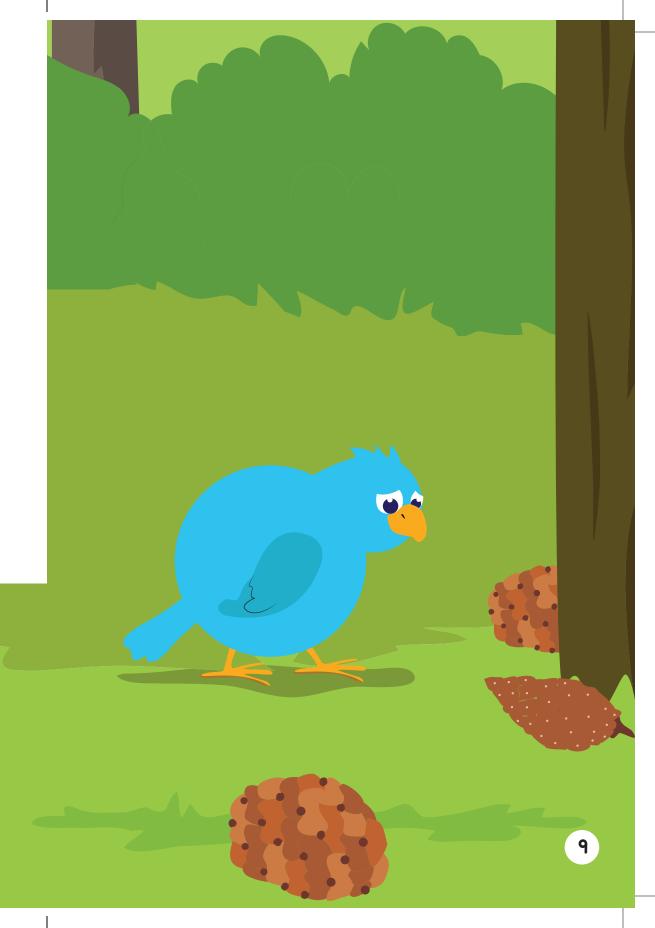

"No," Oak Tree said.

Bird saw that Maple Tree had lots of big leaves. "Maple Tree, may I stay in your branches this winter?" Bird asked. "I hurt my wing and can't fly. I need a place to stay warm."

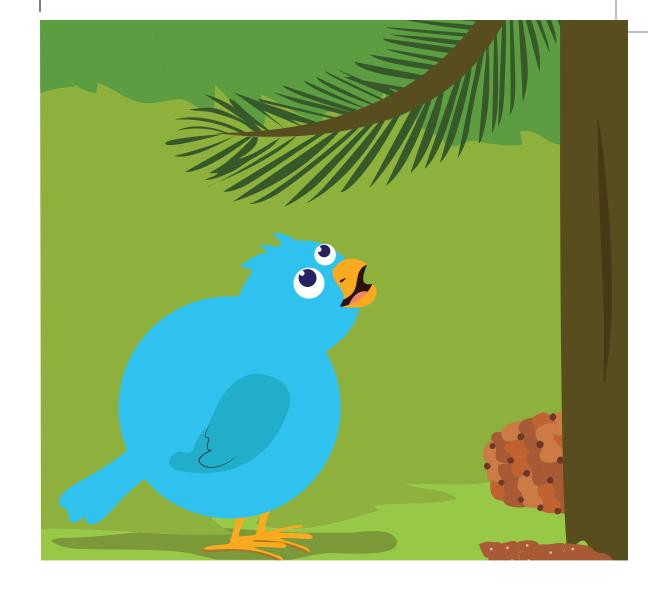

"No," Maple Tree said.

Then, Bird saw Pine
Tree. Pine Tree's leaves
were thin and sharp.
Still, Bird asked Pine
Tree for help.

"Pine Tree, may I stay in your branches this winter?" Bird asked. "I hurt my wing and can't fly. I need a place to stay warm."

Pine Tree said, "You may stay in my branches as long as you would like."

Bird stayed in Pine Tree's branches until spring came. Bird's wing was all better. The Leader of All Animals came to the forest.

"Hello, Bird," the Leader said. "Why did you stay in Pine Tree's branches all winter?"

"I asked the other trees,

but they said no,"

Bird said.

The Leader was angry.

"You did not help Bird when he needed you," the Leader told the trees. "Now, all your leaves will fall off before every winter."

So, that is why trees lose their leaves when fall comes. It marks the start of winter. Since Pine Tree was kind to Bird, Pine Tree does not lose its leaves like other trees!

Every year, birds fly south for the winter to keep warm.

One year, Bird is injured and can't fly south. Will any tree help Bird?
